Minnesota Reservoir

Last Fall, Nob Hill Water applied for a low interest Drinking Water State Revolving Fund loan to demolish the two existing reservoirs and rebuild one larger Minnesota Reservoir located at 615 N. 56th Avenue. In January the Association was notified our project was funded! This project is two-fold. First, this project will be replacing a reservoir that is approximately 60 years old. Second, it will increase storage capacity for the Association over 500,000 gallons, which is needed as evidenced by the last Comprehensive Plan approved by Department of Health. Construction details are hoped to be completed within the next month.

TESTING

TESTING

It's that time of the year again!
Nob Hill Water certified
Backflow Assembly Testers
will be out in your neighborhood testing backflow as-
semblies, as required by the
Department of Health.
This helps to ensure safe
drinking water for everyone.
If your device does not pass or needs
necessary changes as required by law, you will re-
ceive notification from our
office.
Currently, this is a free
service for
Nob Hill Water customers.

***New construction is on
the rise!***

Nob Hill Water is expanding into
Summit View (north of Sum-
mitview at 89th), Rainier Court
(north of Summitview at 90th),
Washington Heights Phase 4 (West

of 72nd, north of Coolidge) and Vista Ridge (east of S
72nd, west of Easy Street). Additionally, with the road
replacement on 66th from Englewood to Scenic, Nob Hill
Water took advantage of reduced fees to replace the
main line and service lines in that area. Last fall, Nob
Hill Water started a main line replacement job along Sce-
nic from 72nd Avenue to 67th Ave., due to aging pipe in
that area. It is anticipated that we will return to that job
later this summer.
