Chris Schlect, Trustee

Minnesota Reservoir Update

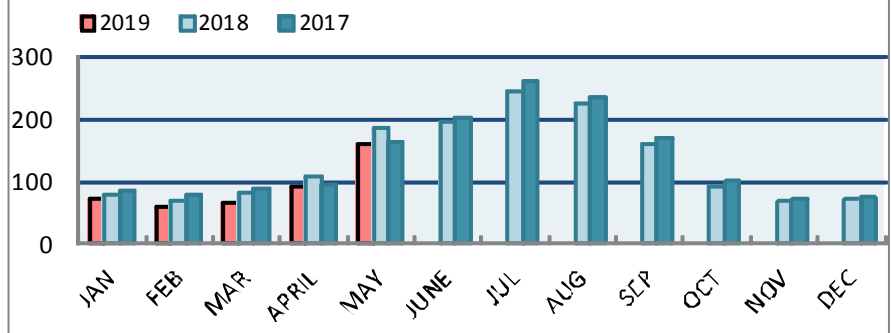

Even before the snow had melted, crews were on site getting prepared to start construction once again. The floor, walls, and column supports for the roof have all been poured. Crews are now currently building the structure to support the forms to pour the roof. We expect the roof to be poured later in June. After additional finish work to be done on the walls and other site work to be completed. Project is estimated to be complete in August!

Service Outages

Our web site has now been updated to contain a "Services Outages" section. This section will provide information on any service outages—planned or emergent. Be sure to check the web page for the most current information.

Nobhillwater.org

It's that time of the year again!
Nob Hill Water certified
Backflow Assembly Testers
will be out in your neighborhood testing backflow
assemblies, as required by the
Department of Health.
This helps to ensure safe
drinking water for everyone.
If your device does not pass or needs
necessary changes as required by law, you will
receive notification from our
office. Currently, this is a free
service for Nob Hill Water customers.

AUTOMATIC PAYMENTS

With automatic payment you no longer
have to remember to pay your bill each
month. The amount equal to your bill will
be automatically withdrawn from your
bank account and used to pay your bill.

***You can now sign up online
via our Customer Portal!***

48TH AVE PROJECT

You may have noticed that Nob Hill
Water has been working in the area
of 48th Avenue, from Tieton Drive to
Nob Hill. This project is intended to
abandon the current 6" AC mainline
that runs along 48th Avenue and re-
place it with a new 8" PVC mainline
and tying in all of the corresponding
customer services along that stretch.
